To Whom It May Concern:

I am pleased to recommend Washington Media Services to the American Legion of Washington. Since 2005, I and my staff have worked directly with WMS Creative Director Adriane Wolfe and the WMS creative team on the design and maintenance of our website. The design was a marked improvement over our prior website design, and WMS's responsiveness on maintaining our website has been exceptional.

We were so pleased with the work they did on the Washington Self-Insurers Association website (www.wsiassn.org) that we hired them to develop our membership directory for the past three years. WMS formats the information, prepares it for print, and submits the piece to the printer, all while providing outstanding services and creativity.

Through the years, we have been able to and continue to depend on WMS to provide creative support for WSIA, all the while acknowledging the limitations of our financial resources. That is why I feel confident in recommending their services to the American Legion of Washington.

Sincerely,

Dave Kaplan
Executive Director
Washington Self-Insurers Association
